From the President's Point of View

Friendly Reminder

As you know February brought record amounts of rain to our small part of the world. At one point the Lake Wolford grade was closed, EF&GA's little creek bed was a raging torrent, and much of the range was under water. These ongoing down pours caused two of our events to be cancelled. The February general meeting and the February range cleanup had to be called off. The meeting cancellation hit close to home just because I knew my number was due for the \$500 drawing. Dang! The range cleanup cancellation probably disappointed hundreds because we were expecting a record turnout. But good news, we are rescheduling the cleanup for March 31st. This will give two dates (3-17 & 5-18) to get ready for the annual BBQ. Please plan to make these most important cleanups.

For those of you who asked, "How come I wasn't notified of the cancellations?" It's not practical to make over twenty-five hundred phone calls and we don't use mass emailing for security reasons. So here is your friendly reminder, check the EF&GA web site before coming to the range. There will be a front-page notice of any immediate or upcoming changes.

Job Description

Recently a member asked me if I had inspected the porta-potty at the 150-yard range lately. Humbly I replied not recently or ever. He said I needed to inspect it because someone was living in the porta-potty. Inspection did reveal someone indeed had planted roots there. Items from the range, trash, a crack pipe and other drug paraphernalia were discovered and discarded. This incident has caused us to have the two-bedroom porta-potty replaced with a studio size. As we are one association, if you see something out of place please report it. Also, I am reviewing my job description to see if I am slacking in any other area.

Update & Thank You

We have met with the association attorney to make sure our green sheet, i.e.: liability release is up to date in this changing anti-gun environment. Look for a new green sheet version soon. And remember, the green sheet is to be read by you and your guests before signing.

You will notice hard-packed extensions to the eastern creek bridge. No more wet and muddy shoes. Take time to thank Roger Fannin, Dave Pendergrass and their crew. Great job. And thanks to many others that are stepping up and helping out.

Norm Porst

Upcoming Work Parties

March 31st, 2019, May 18th, 2019, August 18th, 2019.

DARRIN'S DOSSIER

A Lot of Rain

Well, we had a few storms roll through and mess up a lot of plans for a lot of events. Some were cancelled and some continued in the rain. I shot the Combat Match in the rain and we all had a

great time. Trap was cancelled on the days that rain prevented it but continued as usual on the dry days. Mostly, the Range did really well considering how much rain we had. *Mom's Creek* rose to become *Mom's Raging Torrent* and actually made it into the Trap Ramada a little bit but everything else seems to have stayed dry.

"Supporting Your
2nd Amendment Rights"

The reason that we did so well is that for years we have maintained the Mom's Creek by clearing the debris out and making sure that the water would always have a sustainable path to flow downstream toward Lake Wholford. These efforts are from **Ray Bucholz, Pamela Tucker**, and the rest of those that help maintain the roses. Also, at every Work Party, we all continue to make sure that it is maintained well. **Ed Migdal** also does a great job to make sure that it can continue to flow across the 100-Yard Range and around behind the 150-Yard backstop. Kudos to everyone who did the work that minimized any damages from the rains.

Make Time to Attend a General Meeting

Bring a friend to the next General Meeting and one or both of you could win a few bucks. At the last General Meeting..., well, it was rained out. There was no \$25 door prize. There was no \$500 Attendance Prize. The next General Meeting is 3/14/2019. You never know, it could be your lucky day this time. If you don't show up, you can't win.

Be a Raffle Donor

Your donations help support our monthly General Meeting Raffle. Our entertainment Chairman is Bud Smith. If you have items you would like to donate to our monthly General meeting raffle, please contact Smoldering Bud at budsmith223@gmail.com. Please consider new or used items in working order. Thanks for your support.

Work Party Rescheduled (3/31/2019)

The Work Party had to be postponed because they couldn't get the dumpsters and equipment to the range due to the road closures. To top it all off, I caught the flu that weekend so I was stuck at home anyways. I was afraid that it could ruin my streak of not missing a single Work Party since I started doing them in 2012. The rescheduled Work Party will be March 31, 2019. Please join us for another great day of exercise, fellowship, great food and service to EF&GA.

Stay Classy, EF&GA

My parents gave my siblings and I many lectures on how to be a classy individual. Being classy has nothing to do with money or wealth. Being classy has everything to do with making your guests feel comfortable and welcome. We have heard reports of people charging guests to use our ranges for casual shooting and/or training. If you have friends that want to use the Range to shoot casually as your guest, then you should treat them as a guest. Making someone pay to come in as a guest is no way to be a kind and gracious host. If you want to invite them to

a sanctioned event like the Cracker Shoot or the Combat Match, that is a different matter entirely. You are both paying for the event and you are not attempting to profit by mistreating a guest.

If you want to look into doing training at EF&GA, you will need to go through the process of being vetted by the Board of Directors, getting properly credentialed and insured, go through the approval process with the CRSO and then getting on the calendar through the proper process. If you are attempting to provide paid training without the proper process, you are putting yourself as well as EF&GA in a very bad liability situation. This behavior is not tolerated and is dealt with quickly on a case-by-case basis.

Camp Pendleton Diaper Dash 2019

Be Part of the Escondido Fish & Game Association "Diaper Dash." We (Linda Linaker) are collecting disposable diapers (new and unused, *please*) to be donated to Camp Pendleton Marine Families. Please bring your donations to any meeting or drop them off at the Meeting Hall. We will be bringing the collected diapers to Camp Pendleton after the annual BBQ. Let's all help build a mountain of diapers for the military families in our community.

CHALLENGE COINS

by Patrick Russ

New for the 2019 Junior Marksmanship program we are presenting challenge coins instead of trophies at the Junior events. The decision was made for many reasons including the fact that kids are more likely to hold onto them for many years. Additionally, the savings to the program is substantial. Overall, we believe that the kids will be happier with the new coins and will hold onto them for a lifetime. The coins come in gold, silver and bronze to correspond with 1st, 2nd or 3rd place. They are engraved with the category and year.

The Junior Marksmanship program would like to thank everyone that had a hand in the design and implementation of the new coins that are now being given out as awards at the Junior Marksmanship events. The coins look amazing and are a great example of what can be accomplished with the teamwork that is seen with the Junior program.

We would like to thank Jon Fein at Dovetail Marketing. Jon worked tirelessly and with amazing patience when helping us with the details of getting the coins produced. He gave us a great price and was able to meet our deadlines, even with multiple changes in the design.

We would also like to thank Steve Tankersley at Laser-Tronics. Steve has been indispensable with getting the coins engraved in a timely manner. Many times Steve was able to finish a large order in just a couple days, sometimes in 24hrs. He was also a big help in figuring out the proper wording and design for the engraving.

Jon and Steve have supported the Junior Marksmanship program many times in the past and are a major asset to our program.

JUNIOR MUZZLE LOADING

Come out and shoot flintlocks and percussion rifles. These are the same types of firearms that were used in the Revolutionary and Civil Wars. Parents can shoot too

When: 8:00 AM 3/10/2019

Where: Meeting Hall / 150yd Range

Contact: Ren Everett

Email: everettju1@cox.net (preferred)

Phone: 760-432-2089

Cost: FREE, no cost to shooter. Open to the public.

Donations will be accepted.

Age: 6 - 20

Registration starts on the 1st day of the month of the shoot, email first and last name.

Check-in begins at 8:00 A.M. on day of shoot in the Meeting Hall.

The Junior Muzzle Loading program is designed to teach our junior shooters how to properly and safely handle a Muzzle Loading rifle. Shooters need not bring anything, except themselves and a parent or legal guardian. Minors can attend with a non-parent or legal guardian with a valid signed and dated parent permission slip.

Escondido Fish and Game Association will provide everything else!

- All equipment required for the Muzzle Loading rifle match (including rifles, ammunition, eye and ear protection etc.) is supplied by EF&GA

- A coach for each shooter on the line.

Shooters are allowed to use their own Muzzle Loading rifles and equipment, if they so desire.

The course of fire consists of 7 rounds fired. The best 5 shots will be scored for record at a distance of 25 yards. All firing will be conducted from the bench rest position.

Safety Class

We offer a safety/familiarization class for our new and beginning shooters. All new shooters to the Jr. Muzzle Loading rifle program must go through the class (once) before being allowed to shoot.

RANGEMASTER SOUND OFF

By: Jay Zimmet – CRSO • crsojay@escondidofishandgame.com

We have discussed several times what a Hot and Cold range is; but who is responsible to call the firing line Hot or Cold? It all depends on whether you are there for casual shooting versus an organized match.

At an organized match the shoot chair (match director) or his/her designated match officials (Range Safety Officers) control the shooting line and when you may load your firearm(s).

The Blue safety lights may or may not be used depending on the shooting activity and how that shoot is organized. The shoot chair is responsible for safety at his/her shoot and is answerable to the CRSO and BOD for safe range use.

I have observed almost every organized shoot at our range except the BB/Pellet match - so “don’t shoot your eye out” guys... All our shoot chairs are approved by the BOD and are required to attend RSO training (with me, pour souls). If you have any concerns about our organized shoots, please let me know.

For casual shooting you and the other shooters are the Range Safety Officer on that range and should coordinate going Hot or Cold. The RSO on duty is there to manage the entire facility and not one particular range.

There are times when the on duty RSO may assist in calling a range Hot or Cold to aid the flow of shooting (targets up or down). Usually we mostly observe the shooting line and point of impact to insure safety first. If you do need our assistance, please do not hesitate to ask, we only bite a little bit...

One of the joys of having firearms is the ability to really learn how to use them and not just come out and *plink*. To become proficient you need muscle memory (time behind the trigger) and we have a large selection of organized shoots that will allow you to improve your shooting skills with your chosen firearm(s).

All of our shoots are open to all levels and we welcome beginning shooters. You do not need to be a “Top” shooter to come out and have fun. Contact the shoot chair of the discipline you are interested in for more information on gear, ammo and what is needed to play. Better yet, come out to their next match to watch and talk to the shooters.

Besides our organized matches to improve your shooting skills, we also have several firearm classes by great instructors in Rifle, Pistol, Shotgun, Reloading, Home Safety, Self Protection and classes just for women. These classes consist of classroom and hands on instruction (live fire) that will help make you a better shooter. I had one pistol student (not a novice) who had an epiphany once he understood that you focus on the front sight, not the target! Also his shooting got better.

As I have mentioned we are all Safety Officers on the range and in particular this time of year with all the green grass – watch out for wild life, in particular deer and turkey walking across the firing line while you are shooting...

Just to be clear, there is no “accidentally” shooting that 10 point buck, or awesome gobbler, and regretfully the gophers are also off limits...

How to place a classified ad in the newsletter

Please help to keep the classified section easy to read and well organized. There is no cost as long as you are an EF&GA member in good standing. Classified ads run for ONE newsletter (one month). If you want to repeat an ad for another month (with price adjustments, etc...) simply re-submit the ad request via e-mail.

Please submit requests for classified ads via email to newsletter@escondidofishandgame.com and be sure to double-check for spelling and grammar errors.

Members Only are allowed to submit Classified advertisements. Your Membership Number must be included with any advertisement request so that we can properly vet the submission before it is published. The Membership Number will NOT appear in the advertisement. Your Membership Number is on your membership badge on the same side as your photo.

No Illegal Transactions may be advertised in this newsletter. It is now illegal to sell ammunition in California without either going through an FFL or a licensed ammunition reseller. EF&GA cannot facilitate any illegal commerce of a state regulated commodity. This is also why firearm sales should include a phrase similar to Buyer pays DROS when advertising the sale of a firearm.

It may sound obvious but requests for classifieds are frequently received with not enough information to be useful to a reader. **There are 5 main components of a classified ad:**

Category – Most classifieds fall into one of 3 categories, 'For Sale', 'Wanted', or 'Lost & Found'.

Subject/Title – This will appear in bold in the advertisement. This should be short (2 or 3 words) and concise.

Description – This is the body of the advertisement and can be a few sentences but not more than a paragraph. Abbreviations appear cryptic and are not recommended unless they are well known acronyms.

Price – A specific dollar amount as well as qualifiers give the reader important information. For example, "\$600 or Best Offer, Buyer pays DROS, Will consider trades"

Contact Info – This should be a name AND a phone number (including area code) and/or an e-mail address.

CLASSIFIEDS

All sales must comply with Federal and State laws!

Nikon Prostaff 5 riflescope #6747 - 4.5-18 x 40 SF Matte BDC New in the box never mounted. \$275

TRAP CORNER

By Darrin Eaton

Century Shoot (Second Saturdays)

Due to popular demand and some brainstorming we came up with a new idea for a fun event. People have been asking for another shoot that is similar to the Trap Card Shoot. We want something that moves quickly and is designed for intermediate and advanced Trap shooters that are practicing for more competitions. What we came up with is a small match designed after the InterClub rules as a monthly event. The event will be held on the Second Saturday of the month. Registration will begin around 12:30 while the machines and microphones are being set up. We hope to begin shooting at around 1:00 PM with a round of 16-Yard Singles (House 1) followed by another round of 16 on House 2. After everyone has completed their second round of 16, we will calculate the Handicap distances and set up squads so that there is minimal distance variations. There will be 2 rounds of Handicap to make the event 100 shots total. The goal is to be finished with all four rounds of Trap by 4 PM so that the Junior Trap guys can set up for 5-Stand and Junior Trap without having to wait for this event to finish. If you are interested in the event and/or want additional information, please send me an e-mail (deaton@escondidofishandgame.com)

Thanks and Kudos

I would like to say thanks to Sparks for building and donating the new table for use with the trap hand thrower. We have upgraded substantially from the old rotting wooden cable spool to the new heavy duty steel rolling table. You can place your birds on top of the beautiful table top with an awesome picture of a couple of US Soldiers with our glorious flag waving in the background. You can also safely rack your shotgun on the side of the table and not fear it falling off of the spool to the ground. To help protect the padded table top from the elements Sparks also custom made the cover for it. If you have not checked it out yet please do. Remember to cover it back up after checking out the padded table top photo. Oh, and say thanks to Sparks for his time, treasure, and talents donated to EF&GA.

NRA Basic Shotgun Class

March 31st, 2019 Sunday 8am-5pm

NRA Basic Shotgun Class. Location: Escondido Fish and Game Association 16525 Guejito Rd, Escondido Ca.

Class Description: This class covers firearm safety and basic skills of Shotgunning. It is also designed to train the student the proper skills required to hit a moving target. The NRA Certified Shotgun Course teaches stance, gun ready position, swing to target, trigger pull, and follow through. The class consists of classroom exercises and hands-on instruction including live fire exercise through which students will learn and demonstrate safe and proper shotgun shooting procedures and technique. Hands on range time will include techniques required for shooting moving targets-(Trap). Upon successful class completion students will receive the NRA Basic Shotgun Certificate. Classes are limited to 12 Students and a deposit is required to secure registration.

BLACK POWDER NEWS

By Garth Warner

Last Contest: On 1/27/2019, we had 12 shooters in the pistol class and 15 shooters in the rifle class. All competed on the Super Short Course with targets at 25, 50 and 75 yards. Ren Everett won the Open Class with a score of 16 out of 18. Tom Arendell won the Primitive Class with a perfect 18 out of 18. Just to make a point about it, he now has four possible's, (perfect scores), over the last 40 years. Just to hammer the point home, he shoots in primitive class. This requires fixed, non-adjustable sights, loading from a pouch on the firing line, and he chooses to shoot a flintlock. Not bad for a "Mature Marine."

Next Contest: Will be on March 24th. This will be a Mid-Range contest with targets at 75, 100, and 125 yards.

What's Ahead: April marks the 40th year we have been shooting Muzzle-Loading Silhouette at the range. For April, we will have a special contest laid out for Pistol and Rifle categories. This will be a "Walk Through" contest where you move from station to station, to shoot at gong targets at "unknown distances." There is a MASSIVE trophy waiting for the high score rifle winner. BPCR shooters are welcome to compete, but will NOT be eligible for the overall win in rifle. (Note: for this contest you can load from the bench OR from a pouch, subject to safety restrictions - we will NOT be shooting from the range house.)

How to Clear a Dry-Ball: With a number of new shooters this year we are experiencing a number of Dry Ball situations. A Dry Ball is loading your muzzle loader with a patch and ball, but without the powder. Everybody has done it at one time or another and we will ALL tease you about it. The very best way to avoid dry-balling is to have a mental check-list for your loading procedure, and **don't allow yourself to get distracted during the loading process.** Failing that, there are several ways to fix it. In a percussion rifle you can remove the nipple, sprinkle 4f priming powder down the flash hole, shake the rifle and repeat until the powder is up to where the base of the nipple will be. Carefully screw the nipple back in place being careful to not cross-thread it. Seat the ball with your ramrod so it is firmly on the powder you sprinkled into the chamber, step to the line, cap and shoot it out downrange. It should plop out down range about 30 yards or so. If it does not clear the barrel, repeat the steps above with more powder, seat the ball again and have at it until it shoots clear. If the above procedure does not work, or if you have a flintlock, another option is to use a Co2 clearing devise. It comes with a variety of adapters for nipples or vents. I have one with me at the range during the contest to use as a second to last resort when you get desperate. Finally we have the least desirable method based on what the real mountain men used back in the day. This is a ball screw. Literally it is a steel screw adapter that attaches to the end of your ramrod. You run the ramrod down the barrel, lightly tap it with a rubber mallet,

and twist the ramrod to screw into the lead ball. When you feel it is screwed in as far as it will reasonably go, you get three friends to help you pull on the ramrod one way and pull on the rifle the other way. If your rifle is full of fouling, this can be quite a task. Generous amounts of oil or other lubricant sometimes helps. That's all for now. See you at the range.
