

# ESCONDIDO FISH & GAME ASSOCIATION

## May 2023

### MEETINGS

**Board Meeting**  
1st Thursday  
6:30 PM Meeting Hall

**General Meeting**  
2nd Thursday  
7:15 PM Meeting Hall

### OFFICERS

**President – Darrin Eaton LM**  
760-630-8339  
[Deaton@escondidofishandgame.com](mailto:Deaton@escondidofishandgame.com)

**Vice President – Mark Baldwin LM**  
760-715-1871  
[Mbaldwin@escondidofishandgame.com](mailto:Mbaldwin@escondidofishandgame.com)

**Recording Secretary – Geoff Orchin LM**  
760-917-2430  
[Gorchin@escondidofishandgame.com](mailto:Gorchin@escondidofishandgame.com)

### DIRECTORS

**Scotti Clary** 760-740-2475  
**Ren Everett LM** 760-432-2089  
**Gary Fukuda LM** 760-420-7488  
**Leonard Hodges LM** 951-760-0407  
**Ed Migdal LM** 760-752-1554  
**Patrick Russ LM** 760-644-2751  
**Jack Starlin** 619-840-7990

### Chief Range Officer

**Gary Fukuda LM – 760-420-7488**  
[Gfukuda@escondidofishandgame.com](mailto:Gfukuda@escondidofishandgame.com)

### Assistant Chief Range Officer

**Mark Baldwin LM – 760-715-1871**  
[Mbaldwin@escondidofishandgame.com](mailto:Mbaldwin@escondidofishandgame.com)

### Treasurer

**Lucy Nelson LM – 760-533-3771**  
[Countersink@cox.net](mailto:Countersink@cox.net)

### Association Clerk

**Juli Everett LM – 760-432-2089**  
[EFGAclerk@cox.net](mailto:EFGAclerk@cox.net)

### Grounds and Maintenance

**Dean Dorman - 858-231-8436**

### Newsletter Editor - Scotti Clary

[newsletter@escondidofishandgame.com](mailto:newsletter@escondidofishandgame.com)

Civilian Marksmanship Program • National Shooting Sports Foundation**

## Darrin's Dissertation

### Rain Issues

For the past couple of months, we have had lots of rain. This has caused many inconveniences, but we have had minimal damage so far. All three of the Trap bunkers have flooded and we have had to replace numerous sump pumps to keep up with the elevated water table causing water to pour in through the walls of the bunkers. The Mom's Creek drainage route has eroded the driveways by the Pistol Range and the Trap Ramada. With all this nonstop water flow, none of our above-ground structures have had any issues so far. We did have a few vehicles stuck on the 150 Range (including a riding mower and a tractor), but we got them all out eventually and nobody was injured. Over the next few months, we will continue to improve how rainwater is routed and accommodate a higher water table.

### Range Improvements

If you have been to the Pistol Range recently, you probably noticed two major improvements. The switches for the flashing lights are much better and the newly installed LED light fixtures on the eaves are much better and way more effective.

The Board just voted to add the same improvements to the 150-Yard Range next. The improved button system makes it so that you can use any switch to turn the lights off instead of requiring you to use the exact switch that turned them on.

At the time of this writing, I just received the new signs that read NO FIREARM HANDLING WHEN LIGHTS ARE FLASHING. The signs are designed with a space in the middle to mount a flashing light fixture. These signs will be placed at each Range facing the parking lots. The intention is to make people pay attention before they get out of their vehicles.

I have had numerous people comment on the new lights and switches and try to give me kudos for the cost-effective and dramatic safety improvement that these lights provide. I can't take much credit for this. It was the brainchild of **Dave Robertson**. He implemented the system along with **Carlos Torrez** who mounted the fixtures and conduit to protect the cabling. If you see either of these guys, be sure to thank them for their contributions to the Association.

### Work Party and Barbecue

As usual, we will have a Work Party on May 20<sup>th</sup> in preparation for the Annual Barbecue on May 21<sup>st</sup>. If you need volunteer hours or just want to be part of something great, be sure to attend either or both days.

At the Work Party we will be doing many jobs that need to be done. Some of the tasks are the usual maintenance and cleaning tasks. Some are infrastructure improvements. There are outdoor heavy-lifting jobs as well as indoor light-duty tasks. The food is always fantastic and the no-cost raffle after lunch is always fun.

The Barbecue is also always a great time for all. There are numerous events in the morning like Hawk Throwing, Archery, Black Powder, 22 Rifle, Trap, Casting, an Egg Shoot, and Cowboy Action. After that an excellent lunch is served by **Bekker's Catering**. The afternoon is spent on raffles, drawings, and a silent auction.

This year the one major change is that the Barbecue will be a non-alcohol event. This was done in compliance with a policy change last year to improve safety and make our Association even more family friendly.

## Darrin Eaton

## Project Donations

This month we received donations for the Flag Pole Monument Project from the following members:

**Robert & Kimberly Marsolais**  
**Joyce Crosthwaite**

We appreciate the generosity from so many of our members.

## Too Many Have Left the Range

**Howard Dunbar** has left the range. Howard joined our Association in October of 2020. Howard was well liked in the trap circle and he will be missed.

Our NRA Training Counselor, **Dave Premetz**, lost his beloved wife, **Jalie**, on March 28. That was two days after their 41<sup>st</sup> anniversary. Our thoughts of comfort go out to Dave.

**John Taliaferro** left the range on April 4<sup>th</sup>. John has been a member since February 2008. His friends speculated that he was probably already on Heaven's Trap Squad before the end of the day, shooting a couple of straights. He will be missed.

**John Konecny** has also left the range. John became a member in December of 2014. Our condolences to his friends and family.

**Larry Jenkins** has joined the others. Larry has been a member since November of 2014. Our thoughts are with his friends and family.

## March Work Party Hits Record

WHAT A TURN OUT!!! A record 154 volunteers showed up at the March 25<sup>th</sup> Work Party. After taking the lawn mower and a tractor for a swim on the 150 yard range, **Garth Warner** led a team in the campground to take care of some storm damage. They managed to stand the archery targets back up and bring down a tree that had partially fallen. **Marc Reno** brought his own tractor up to help out for the day. Our favorite "Grill Master" **Ron Schroder** and his team grilled burgers and dogs. **Linda Linaker** topped off the feast with her specialty....DESSERTS.

The next Work Party will be May 20. This will be the last Work Party before membership renewals are due. We will be cleaning up and preparing for the BBQ for the following day.

## Membership Renewal Letters

Renewal notices were mailed the end of April. If you have not received your renewal notice by the 2nd week in May contact **Juli** at [efgaclerk@cox.net](mailto:efgaclerk@cox.net) or call 760-432-2089.

New members will be asked to send their yellow volunteer hours card in with their renewal. If you have not completed your hours, your membership will not be renewed. The requirement for volunteer hours is 6 hours for your first year and 4 hours for each of the following 4 years. If you've been around for longer than that, you volunteer at your pleasure. There is no further requirement.

## Diapers for Camp Pendleton

Hello all. We are starting to collect diapers again. Please bring your diapers to the clubhouse and to the BBQ. Also new infant onesies would be great. **Linda**

## April General Membership Meeting

The April General Membership Meeting was held on Thursday, April 13.

**Patrick Russ** won the \$25 door prize and donated it to the Junior Program. The Attendance Prize was up to \$400. **Robert Trousas**, **Conner Hand**, **Chris Kafont** and **Gary Phillips** all missed their chance to win the prize, so next month the prize will be the maximum of \$500. You can't win if you're not here.

We had a lot of donors to the raffle table this month. Thanks to **Jim Rolfes**, **Stan Schaeffer**, **Frank Alessio**, **Bob Leider**, **Geoff Orchin**, **Leonard Hodges**, **Moose Cleary**, **Eric Elsam**, **Ren Everett**, **Mike Q.** (and wouldn't you know, there are 2 Mike Qs in our membership), **Mickey Booher**, **Steve Baran**, **Ken Lusher**, **Mark Baldwin** and **The San Diego Zoo and Safari Park** for your contributions. Your donations help spice up the raffle. **Stan Schaeffer** donated 3 44mm shells from one of the 5" guns on the Dixie, a destroyer tender home ported out of San Diego from 1940 to 1983.

**Ray Bucholz** and **Pamela Tucker** drew 2 winners for the Mom's Creek and Black Diamond raffle. **Leonard Hodges** and **Paul Varesio** walked away with some nice coin sets.

The biggest item of New Business was the initial nominations for the EF&GA Board of Directors and Officers. Nominees currently on the list are **Darrin Eaton** for President, **Mark Baldwin** for Vice President, **Geoff Orchin** for Secretary, **Rick Baugh**, **Rich Hall**, **Tim Hoy**, **Patrick Russ**, **Ren Everett** and **Jack Starlin** for Directors. The floor will be open for additional nominations at next month's General Membership Meeting on May 11, 2023. Elections will be held once the second round of nominations are closed. You must be present at the meeting and show your membership badge to vote

## COOKIES, COOKIES and more COOKIES

Hey everybody! We had such a great response to Cookie Thursday at our December Meeting. Let's do it again! The May election meeting (5/11/2023) is the time for cookies. Please bring 2 dozen so that we can all enjoy while we wait for our results. See you then. **Linda**

## Rose Pros

**Ray Bucholz** and **Pamela Tucker** have been the Association's Rose Pros for as long as I have been a member. There is an awful lot of work for 2 people to manage. In the last couple of years we have had the great fortune of gaining 4 new members that are also Rose Pros. **Laura Van Eyck**, **Cathy Schulte**, **Kathleen** and **Ross Hider** will be joining Ray and Pam on the Rose Team. If anyone is interested in joining the Rose Team, please contact **Pamela Tucker** at [tuckerp17@hotmail.com](mailto:tuckerp17@hotmail.com). You don't have to be a pro to join. I watched in amazement at the last Work Party as Laura and Cathy trained a gazillion new members with little or no experience.

### Don't Miss the Annual BBQ

The 2023 BBQ will soon be here. Mark your calendar for Sunday, May 21. Tickets are \$35. Children 12 and under are still only \$10. Your tickets include participation in all of the events in addition to a delicious meal. Now....If you have never been to the annual BBQ, you are in for a real culinary treat. This is not our normal "Work Party Burgers and Dogs". We're talking about a fully catered feast hosted by **Bekker's Catering**. You really don't want to miss this.

As always, we will have the mega BBQ Raffle. Tickets will be on sale at the BBQ for \$1 each. We will also reprise the "Rifle Raffle" with 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place prizes at \$1 per ticket. A Weatherby Shotgun will be up for grabs with 200 tickets priced at \$10 each. If you thought we were done with firearms, think again. The silent auction already has a growing collection of firearms to bid on. AND....for the icing on the cake, we will hold the official dedication of our new Flagpole Monument. As a last reminder, we are a "No Alcohol" zone. Do not bring alcohol to the BBQ. Alcohol and Firearms do not mix.

### Contributions for the BBQ

The barbecue is almost here. If you have donations please contact **Linda Linaker** [momma92082@gmail.com](mailto:momma92082@gmail.com), **Patrick Russ** [patrickruss71@gmail.com](mailto:patrickruss71@gmail.com), or **Ed Migdal** [edwardmigdal@aol.com](mailto:edwardmigdal@aol.com) so we can make arrangements to receive them. We are going to have a great event so make sure you get your tickets. Thank You.  
**Linda**

### 100 Yard Range Project

It appears that most of the rain from the wettest season on record is finally past us. With that in mind I would like to "Jump Start" the 100 yard range remodel/addition.

To get going I need individuals who are qualified for the work to be "in-charge" of each portion, as follows:

1. Concrete demo: minor site work (2 block high Key-Stone type walls around the 2 trees at the East end of the range), footing excavations, installation of forms and reinforcement and the epoxy dowels from the existing slab to the new concrete.
2. Concrete placement and finishing: I think we will need to hire this out so that it is done correctly.
3. Framing: both demo and installation of new beams and new framing as occurs.
4. Roofing: both demo and installation of new roofing for the entire range roof.
5. Plumbing and electrical.
6. Pressure wash and painting.

Part of being "in-charge" of these assignments will be to determine any equipment necessary to rent to accomplish that portion, assist me in developing a final materials list and the number of volunteers needed to accomplish that portion.

Once we have the 6 people (team) assembled we will have a "kick-off" meeting to help determine a schedule that we all can commit to.

It is my hope that we can start the project no later than June 15 and that we can finish in 6 to 8 weeks depending on weather.

All interested parties please contact me. Thank you.

**John W. "Jack" Starlin, S.E.**

### 5 MPH

Watch your driving speed on the range. It is a "dust free" and "accident free" 5 MPH. Some of us are feeling a bit ZIPPY these days.

## RELOADING CLASSES

Private Classes Available

**Elvio Marchi**

NRA Certified Instructor  
Metallic Cartridge Reloading  
Rifle/Pistol Instructor  
NRA Chief Range Safety Officer

ELVIO1@COX.NET

## NRA Metallic Cartridge Reloading Class

**5/6/2023, 7/1/2023, 9/2/2023 & 11/4/2023 (8 am – 12 noon)**

It seems as if the ammo drought is starting to decrease slowly. Even so, it is still on a limited scale. Need or want ammo but can't find any? You're left with the old American skill; self-sufficiency and creativity...MAKE YOUR OWN!

### Class Description:

This class will supply you with the knowledge to properly and safely reload your used casings into economical, effective and accurate ammunition. As you hone your new found reloading knowledge you will also improve your shooting skills.

The class is structured in two separate sessions:

**1<sup>st</sup> session** – This class is strictly academic and is held in the EF&GA Meeting Hall on the above dates from 8 am until noon.

**2<sup>nd</sup> session** – This is "Hands On" training scheduled with a mutually agreed to time and date where you will reload your own cartridges on the reloading bench that day.

The cost of the class is \$125 for EF&GA members and \$135 for non-members. If you need supplies (ie: cases, primers, projectiles and powder) they are available for a \$15 surcharge.

Prior registration is necessary and a \$20 deposit is required to secure a place in this limited class.

**Contact:** **Elvio Marchi** [elvio1@cox.net](mailto:elvio1@cox.net) 760-734-3942 or register using the link at <http://www.escondidofishandgame.com/classes/nra-basic-metallic-cartridge-reloading-course>

## Hunter Education Class

**5/13/2023 & 7/8/2023 (7 am – 4 pm)**

### Class Description:

The Hunter Education Course is a nationally approved curriculum designed to teach hunters the knowledge, skills, and ethics to become safe and responsible hunters. The covered topics include basic firearms nomenclature, safe firearm loading/unloading practices, wildlife conservation, wildlife identification, hunting ethics, hunt preparations, hunting techniques, shot placement, bag limits, tracking skills, basic survival skills, basic navigation skills, basic first aid, game recovery, field dressing, game care and much more. Every state in America requires a Hunter Education certificate in order to obtain a hunting license. The certificate issued is valid in all states and in numerous foreign countries, and is good for life. No live fire involved, firearms and ammunition are not required for the course.

Register at **California Hunter Education** website.

**Contact:** **David Premetz** 760-489-1082 [slixgunr@yahoo.com](mailto:slixgunr@yahoo.com)

### NRA Rifle Instructor Class

5/27/2023 (7:30 am – 3 pm)

**Class Requirements:** All Instructor candidates must first complete the Basic Rifle Shooting Course and the Basic Instructor Teaching Course prior to completing the Rifle Instructor Course as required by the NRA.

**Class Description:** The NRA Rifle Instructor Course is designed to provide the necessary training to become an NRA Certified Rifle Instructor.

The Rifle Instructor Course provides actual hands-on methodologies of the curriculum to provide candidates the opportunity to experience a classroom educational setting. There is a live-fire portion where candidates meet the shooting level also required to become certified instructors.

Registration for the course can be done directly through the NRA website.

**Contact:** David Premetz at [slixgunr@yahoo.com](mailto:slixgunr@yahoo.com)

### NRA Pistol Instructor Class

5/28/2023 (7:00 am – 4:00 pm)

**Class Requirements:** All Instructor candidates must first complete the Basics of Pistol Shooting Course and the Basic Instructor Teaching Course prior to completing the Pistol Instructor Course as required by the NRA.

**Class Description:** The NRA Pistol Instructor Course is designed to provide the necessary training to become an NRA Certified Pistol Instructor.

The Pistol Instructor Course provides actual hands-on methodologies of the curriculum to provide candidates the opportunity to experience a classroom educational setting. There is a live-fire portion where candidates meet the shooting level also required to become certified instructors.

Registration for the course can be done directly through the NRA website.

**Contact:** David Premetz at [slixgunr@yahoo.com](mailto:slixgunr@yahoo.com).

### Bow Hunter Education Class

6/10/2023 (7:00 am – 3 pm)

#### Class Description:

The Bow Hunter Education Course is a nationally approved curriculum designed to teach bow hunters the knowledge, skills, and ethics to becoming safe and responsible archery hunters. The covered topics include basic bow and arrow nomenclature, safe bow and arrow carrying practices, distance-judging techniques, wildlife conservation, wildlife identification, hunting ethics, hunt preparations, hunting techniques, tracking skills, shot placement, basic survival skills, basic navigation skills, basic first aid, game recovery, field dressing, game care and much more. Most states in America require a Bow Hunter Education certificate in order to obtain an archery hunting license. The Bow Hunter Education Certificate does not replace the regular Hunter Education Certificate. Both are required in states that require them. The certificate issued is valid in all states requiring it, and is good for life. The Bow Hunter Course includes 3-D archery field shooting at various targets and distances, including using a ground blind and tree stand. Bring a bow, arrows and quiver. Traditional and compound bows are acceptable. Use field tips on the arrows, no broadheads for the course targets.

Register at [California Hunter Education](http://California Hunter Education website) website.

**Contact:** David Premetz 760-489-1082 [slixgunr@yahoo.com](mailto:slixgunr@yahoo.com)

### NRA Basic Shotgun Class

6/11/2023 & 11/12/2023 (8 am – 4 pm)

#### Class Description:

This class covers firearm safety and basic skills of Shotgunning. It is also designed to train the student with the proper skills required to hit a moving target. The NRA Certified Shotgun Course teaches stance, gun ready position, swing to target, trigger pull and follow through. The class consists of classroom exercises and hands on instruction including live fire exercise through which students will learn and demonstrate safe and proper shotgun shooting procedures and technique. Hands on range time will include techniques required for shooting moving targets (Trap). Upon successful class completion students will receive the NRA Basic Shotgun Certificate. Classes are limited to 12 students and a deposit is required to secure registration.

# RANGEMASTER SOUND-OFF

by Gary Fukuda

## Negligent Discharges and Dropped Firearms

Negligent discharges and dropped firearms are serious infractions. These are more likely to occur during sanctioned events where activities (like changing magazines and holstering during the Combat Shoot) are permitted that are not permitted during casual shooting. Any occurrence, however, is dangerous and highlights that you are not in the right frame of mind to be handling firearms at that time. You will be sent home.

We are implementing practices at sanctioned events to eliminate these problems and make the events safer.

1. There will be 2 RSOs on each squad.
2. Follow your RSO's directives exactly.
3. There will be no shooting or changing magazines while moving.
4. We will be having RSO Training Days:
  - A. To determine skill sets
  - B. To make sure everyone understands the range commands exactly the same way.
  - C. To make sure we are watching the shooter, not hits and misses.
  - D. To reinforce that "Reholstering" is an administrative task not a tactical task.

## Muzzling

Be aware of where your muzzle is pointing at all times. Your muzzle should always be pointed down range. If you hear the command "Muzzle", you or someone near you has pointed their firearm in the direction of another shooter, possibly YOU. You are also authorized, even expected, to shout out the command if you observe it.

## Driving Protocol

This is a private facility. We don't want unknown people coming and going without member supervision. Please wait for the gate to close when you enter or exit the range. If someone does come in behind you before the gate closes, make sure they have a membership badge.

The speed limit on range property is 5 miles per hour. Please adhere to that speed.

## Where is Your Firearm?

Last month we had another firearm left on the range. In another incident someone took the wrong firearm home. Please keep track of your firearms and other equipment.

If you have any comments. Concerns or questions, contact me at 760-420-7488 or [gfukuda@escondidofishandgame.com](mailto:gfukuda@escondidofishandgame.com)

Thanks,

**Gary Fukuda**, Chief Range Safety Officer

## Cold Range:

- Blue Blinking Lights **ON**

# TRAP CORNER

by Chris Cote

Rain, rain go away and come back next year when lakes need to be refilled. As you all know we received some significant rainfall in March. So much so, we had more rain days than shooting days. Now that the sun has revealed itself, we are back to complaining about how hot it is and also back to shooting.

With all the rain we had, mother nature managed to carve her own stream right through our range. Currently the east drive through to the Pistol and Trap range is closed due to the wash out. Please drive slowly when using the west drive through between the clubhouse and the trap ramada.

## On the Range

I'm not sure if anyone knows this but we have sump pumps in all 3 trap houses. Let me tell you they have been working overtime. During the month the houses were being checked regularly. It's a good thing because the water table is so high we had 2 pumps burn out and that left several feet of water in house 1. We have foundation leaks in house 2 that sound like a water fountain running constantly. We have some work to do when it dries up.

A special thank you from the trap master to **Rick Baugh** and **Gary Fukuda**. They helped with the temporary repair and installation of the new sump pump.

## Junior Trap

April Junior Trap had 42 shooters, 22 new shooters who had never fired a shotgun. We had 15 intermediate and 4 Advanced shooters. We shot about 1500 rounds.

# JUNIOR CORNER

## Important Dates:

by Patrick Russ

Junior Trap 5/13/2023 & 6/10/2023

Junior Pistol 6/18/2023

There will not be a Junior Rifle event this month due to the BBQ.

Today was Junior Pistol. We had a great turn out. I believe we had 30 shooters. The trigger finger discipline was perfect. I didn't catch anyone with their finger on the trigger at the wrong time. I'd like to thank everyone that showed up to help coach. As usual, we couldn't do it without you.

Have you ever wondered why we do a safety brief before each event and before every relay in a Junior event? Unless you are a first time shooter, do you actually learn anything from the safety briefs? I asked these questions of some of my Junior shooters. The answers actually kind of surprised me. I got answers like, "We do the safety briefs in case anything has changed or if there are new rules that we need to follow." "We like to hear ourselves talk." "We do them in case someone forgets the safety rules." But the best answer was, "We do the safety briefs in order to remind everyone to be safe and to put safety in the front of our minds". With the Junior program safety is practically a religion. We talk about it constantly. Most of our experienced shooters can recite the safety rules verbatim and explain them. I would challenge any adult to do that.

# BLACK POWDER NEWS

by Garth Warner

**Last Month Recap:** Ode to Spring, the field is wet..... really wet. Our April contest was scheduled to be a Mid Range with targets at 75, 100, and 125 yds. We set up the Pigs (smallest targets) at 75, and found the 100 and 125 lines were literally underwater. So....we set up the Bears (bigger targets) at 50 yards and the Rams (Biggest Targets) at 25. This is bass-ackward from how we normally shoot. Apparently this was interesting enough to draw 5 non-club shooters to try their luck in the slush and goo. Note: Black Powder Cartridge Rifle rounds are pretty hard on the Silhouettes at short range. We had to weld up 6 silhouettes after the contest. I am a novice welder and somehow manage to not burn myself too badly every time I try.

**Next Month:** Our May contest will fall on the 28th. This will be a Super Short Range contest for new shooters. If you have the gear and have been waffling about coming out to shoot, this contest is for **YOU**.

**Rendezvous:** Will be coming up on June 17th and 18th. This will be a two day event held on the 150 yard range. For those of you that have not done this before, the contest is a "Walk-Thru" format, with steel targets at an "Unknown" distance. Categories will include Muzzle Loading Single Shot Pistol, Muzzle Loading Rifle, and Muzzle Loading Trade Gun. You can load from a bag (preferred) or from a bench. Traditional clothing is preferred, but not required. Sorry guys, there will be NO revolver or BPCR classes in the Rendezvous. We WILL have a Hamilton/Burr Duel contest format as introduced by **Tom Arendell** recently. We will also have a Tomahawk Contest. If you don't have a Hawk I will provide club hawks for the Pilgrims. More details next month. If you want to help set up and run this please contact me. [Gwarner@cox.net](mailto:Gwarner@cox.net). I am old and feeble. I will need help.

**Moisture Control:** At every contest I run, there are a certain small percentage of shooters that consistently have hang fires, or flat out failure to fires. More rarely we also have the infamous smoking patch shooters in the summer. Both of these issues can be identified as a lack of Moisture Control.

If you have been practicing good muzzle loading cleaning technique then after each shooting match, you have cleaned the bore and breach of your rifle with hot soapy water. After running some drying patches down the bore, you followed up with an oiled patch down the bore to keep it from rusting. Maybe you even gave the breach plug a little spritz of oil as well. Prior to shooting your first contest round you snapped a cap or two (or flashed a pan) to blow the oil out. This is followed by a dry patch down the bore to sop out the last of the oil. Now you get ready to load your first contest ball for the match. If you swabbed the oil out, and did not go crazy on the patch lube, that first round goes bang with the first trigger pull. Life is sweet!

Subsequent loads don't seem to be as consistent. If your patches are not moist enough (grease or liquid lube) loading a ball down the barrel becomes very difficult. When you do shoot the load, the patch can be seen smoking 15' to 20' beyond the muzzle. Your patches are too dry.

The reverse of this is the guy that saves all his spare saliva in a mason jar for a month, just to make sure that his patches and cleaning swabs are going to be moist enough to get the job done. Generally this guy is a fan of 1800's sea faring battles where the ship's gun crew swabs out a barrel with a sponge from a bucket of water. While a little bit of moisture is a good thing, excess moisture tends to become wet gruel in a bore. Trying to clean (or load) the bore this way, pushes the gruel into the flash channel in the breach. This blocks the spark from the next shot from reaching the chamber. Excess moisture can also soak into the black powder loaded for the next shot, making velocities inconsistent.

So how do we prevent this? First of all, take the mason jar of spit out of the equation. Shooting patches should NOT be so wet that you can squeeze a drop of fluid from them. DAMP OK, WET NOT OK.

Treat your shooting patches with lube 3 or 4 days before an event and keep them in an airtight container. This allows the moisture to be distributed equally through ALL of the patches. Remember damp, not wet.

I have less experience with grease patches. Again, an even application of grease is the key to consistent performance. You should not have enough grease on each patch to grease your car, your lawn mower and your hair in one day. You should be able to rub your fingers over the patch and tell that it is greased. If you're leaving fingerprints on the patch, you're using too much.

**BUT I HAVE TO CLEAN THE BORE!** Yes you do. Sort of. Sometimes..... The products of combustion from Black Powder include a variety of chemicals. The biggest component is Carbon (charcoal). If left untreated in your barrel, it tends to build up into a hard dry coating that makes loading difficult to impossible after a certain number of shots. This is true regardless of the type of patch lube you use. I am a big believer in swabbing between shots. I use a DAMP, but not WET patch. I leave my Mason jar of saliva at home for other projects. (Wet sanding wood with figure in it).

The idea here is to remove some of the built up carbon (charcoal) and DAMPEN what remains so that your rifle will load and shoot consistently from shot to shot. How wet is damp? You will have to experiment with YOUR rifle and patch combination to find out. If you are consistently getting hang fires and/or failure to fires, try drier. If your patches are smoking on the ground after you shoot, try wetter. Now, just to mess you up some, on very hot and dry days you may need to use a wetter cleaning and/or shooting patch. On damp, humid or rainy days you may need to use a drier cleaning and/or shooting patch. The reason for this is that black powder will absorb moisture out of the air. On wet days, I have been known to use a damp patch immediately followed by a bone dry patch in the bore. Your mileage may vary. Be cautious of running a dead dry patch down a fouled dirty barrel during most hot conditions. It will grab the carbon in the barrel and be a real chore to get out.

Thus is the joy of black powder muzzle loading. Learn, Adapt, Improvise and Overcome. The Marines figured it out. You can too.

## Muzzle Loading Silhouette Contest Results for March 26th 2023

This was scheduled as a Mid Range contest with targets from 75 to 125 yards. Due to extensive flooding on the left side of the field, and anywhere beyond the 75 yard line, we elected to make this a Super Short Range contest with targets at 25, 50, and 75 yards. Due to flooding on the left side of the field the targets were set up in reverse order. Pigs on the right were set up at 75 yards. Bears were set up at 50 yards in the center, and Rams were set up at 25 yards on the left side of the field. Even with this modification, fallen targets had to be "excavated" and wiped free of mud when reset. Conditions were otherwise clear and cool. (34 to 63 degrees).

**Note:** We had 5 non members compete for the first time, or almost the first time. They made the usual beginner mistakes and we kept them shooting. Almost everybody hit something in the rifle event.

## 100 yard HIGH POWER RIFLE SHOOT

Saturday 5/13/2023 8:00 am

### Competitive - Fun Shoot

Any sights allowed. Any centerfire caliber allowed.

The event consists of 4 position shooting.  
Unlimited practice rounds then 10 rounds per position.

1 Hour is total time allowed.

EF&GA Members	\$5.00
Non-Members	\$10.00

Contact: Paul Hendrickson @ 760-522-4660

### How to place a classified ad in the newsletter

**EF&GA Members** in good standing may submit Classified Advertisements to the newsletter at no cost. E-mail to [newsletter@escondidofishandgame.com](mailto:newsletter@escondidofishandgame.com) by the 16<sup>th</sup> of each month. Include your Membership Number from your membership badge with your request. It will NOT appear in the advertisement.

**Classified Ads run for ONE month.** If you wish to repeat an ad for another month (with a maximum of 3 months), re-submit the request by the 16<sup>th</sup>.

**No Illegal Transactions may be advertised in this newsletter.** It is illegal to sell ammunition in California without going through an FFL or a licensed ammunition reseller. Firearms Ads must also include a phrase similar to "Buyer pays DROS".

**Please include the following in your Classified Ad:** Subject/Title, Description, Price & Contact Information

**Editor's Note:** Please accept that when space is limited your first 2-3 firearms or your first 5-6 non-firearm items will be published.

answer from page 11

## PILGRIMS

## COWBOY ACTION SHOOTING

by **Double Diamond**

The Escondido Bandidos held their match on April 1st, 2023. A small group of 18 shooters completed the match with **"Dead Meat"** finishing as the top shooter.

In spite of all the mud at the match, there were still two clean shooters: **Sea Soldier** and **Big Horn Bari**. Our annual match will be held on May 6th, 2023, and will be followed by an ice cream social in the clubhouse.

*Relive the simpler days of Old California with us...*

*Rancho Guejito Vineyard grows its grapes in the fine soils and climates of the last remaining intact Mexican land grant in California. Our 23,000 acre ranch was established in 1845. Nearly 175 years later, we have kept the tradition of cattle ranching, agriculture, and wine making alive.*

*Visit us every weekend for hayride tours, live music, and wine tasting.*
