## Darrin's Dissertation

Most of us consider Thanksgiving to be the one day of the year when calories don't count and we all eat way more than we should. As the name of the holiday implies, it is much more than that. It is a time to count our blessings and be grateful for what we have. I encourage you all to pause and consider all that we have to be thankful for.

I am thankful that we have a strong membership of friendly, intelligent, talented, and passionate people. We have a facility that is well maintained and beautiful because we have members who volunteer to maintain and improve all of the features of the range. We have a team of RSOs, Trapmasters, and Shoot Chairs who volunteer their time to make sure that the range and events run safely and smoothly so that all who come are safe and feel welcome. We have a Junior Marksmanship program that has no equal in the region and is run by some awesome volunteers as well as parents that are willing to pitch in. We have it really good here, let's all be thankful for all that we have to share and experience with each other.

### Work Party (11/27/2021)

I really enjoy our quarterly work parties. I have not missed one for the past 9 years and I still enjoy them. I'm always amazed at how much work we accomplish in just one day. This time it will be on the Saturday after Thanksgiving so that we can all work off a pound or two of what we gained a few days earlier. It's also a great excuse to not hang out at home with the in-laws. Because it is late in the year, the weather is usually cool and pleasant and there is usually enough moisture to prevent most of the airborne dust.

There are many tasks that need to be done. Everyone is welcome to pitch in and be part of something awesome. People of all ages and abilities are sure to have a job to do and make the Range great again. The food is always great and the no-cost raffle after lunch is also a lot of fun.

We usually start around 8 AM and we work until the tasks are done. Members and guests alike are welcome to attend and all who participate are greatly appreciated.

See you there!

*Darrin Eaton*

# BULLET POINTS

By Scotti Clary

## Join us at the Work Party – Saturday 11/27/2021 PARTY, PARTY, PARTY!!

Yep...We're having another Work Party. Join us on Saturday, November 27 for the Fall Work Party. If you already know what project you want to work on....

Go For It. If you aren't sure what to do, look for the "Pop-up" canopy on the Trap pad. We'll give you some options. Bring work gloves if you have them and gardening tools if you think you would like to do some weeding and trimming. After a satisfying morning of cleaning up our Range, we will have lunch together followed by a no charge raffle.

## Volunteer to Help Organize the Annual BBQ

Ed Migdal and Neil Pisk have been Co-Chairmen of the Annual EF&GA BBQ for many years. Neil's recent passing leaves some very big shoes to fill, the BBQ being one of many. One area that Neil was particularly good at was acquiring raffle prize donations from countless businesses. Ed is going to need a lot of immediate help to keep plans on track. If you are able to volunteer either as a Co-Chair or one of many Sub-Chairs, please **contact Ed at 760-752-1554**.

## Neil Pisk Memorial Scholarship

Escondido Fish and Game Association is pleased to announce the **Neil Pisk Memorial Scholarship** Awards for 2021. Congratulations to **Drianna Brinkmeyer, Austin Ellerby** and **Nathan Elliott**.

## Dave Randsberger Memorial Joy Drive & Diaper Dash

**Linda Linaker** is now collecting new toys, gift cards, cash and diapers for the annual Dave Randsberger Memorial Joy Drive. This annual Christmas drive is for the children of deployed service personnel at Camp Pendleton. Linda and her team will deliver the gifts and diapers to Camp Pendleton Family Services who will distribute them to more than 150 families for Christmas. Linda collected \$320 at the October General Meeting. Bring your donations, New Toys and diapers to the November meeting on 11/11/2021. Let's set a new record this year.

## Make Time to Attend the 11/11/2021 General Meeting

We hope to see you at the next General Meeting on 11/11/2021. You'll get an update about improvements on the range and all of the upcoming shoots and events. Bring a friend and one or both of you could win the door prize. At the October General Meeting, **Jack Starlin** won the \$25 door prize and donated it to the Junior Program. If **Keith Detellem** had attended the meeting, he would have won the \$500 Attendance Prize. Next month it will remain at \$500. Participate in the various raffles for additional chances to take something home.

## Be a Raffle Donor

If you have NEW or LIKE NEW items you would like to donate to our monthly General Meeting Raffle, please contact our entertainment chairman, **Smoldering Bud Smith** at [budsmith223@gmail.com](mailto:budsmith223@gmail.com). Thanks to all who donated to the raffle table at the 10/14/2021 General Meeting: **Mark Eller, Bill Linamen, Bud Smith, Scotti Clary, Bill Williams, Geoff Orchin**.

## Last Call for 75th Anniversary T-shirts

**Ed Migdal** still has some unclaimed T-shirts from the 75th Anniversary BBQ. Any T-shirts not claimed prior to the November General Meeting will be sold. The money will go toward next year's BBQ. **Call Ed at 760-752-1554** to arrange to pick up your T-shirt.

## National Bison Day

In 2015 the 114th Congress passed S.2032, the National Bison Legacy Act, which established and adopted the North American Bison as the national mammal of the United States. November is National Bison Month and the first Saturday in November was declared National Bison Day by Presidential Proclamation.

In 1973 the San Diego Zoo gifted 14 North American Bison to the Camp Pendleton Marine Base. The herd has grown with estimates ranging from 119 -150 members. These animals can weigh up to 2000 pounds and run as fast as 35 miles per hour.

Escondido Fish and Game Association celebrates National Bison Month as part of our interest in the Black Powder and Muzzleloading heritage.

**Ray Bucholz** will present over \$1500 worth of Black Diamond Awards at the November Black Powder shoot 11/28/2021 in honor of our National Mammal.

# BLACK POWDER NEWS

by Garth Warner

**Rock Stars:** *John Johnston, Alonzo Clark, Allan Childers, Jose Perez, Adalberto Perez, and Ralph Magnus*, Showed up on Oct 9th for ML Silhouette Target Repair. This turned out to be quite a project. It involved swinging a sledge hammer, using a custom made bending tool, and welding, with both a Mig, and a stick welder. I would like to extend my personal THANK YOU to each of you for all the hard work.

**Last Silhouette Contest:** Was on Sept 26th. We had an exceptional turnout. The fact that we were shooting Super Short Range with Rifle, and Stupidly Short Range with Pistol may have had something to do with it. Since it was so well received, we will try this format again in December.

**Next Silhouette Contest Nov 28th:** November is National Bison Month. **Ray Bucholz** tells me he has about \$1500 in prizes available for the winners by category. This would normally be a Mid-Range Contest, however, I have something a little different in mind. The format will be announced at the field on the day of the event.

**Contact Garth Warner** at [Gwarner@cox.net](mailto:Gwarner@cox.net) for details.

**Someday It May RAIN!:** Maybe.... In the event it is raining on a contest day, we will set up for a Super Short Range Contest. Everyone gets to shoot from under the cover of the range house, lest we melt like snowflakes....

**Next Bullseye Contest Nov 7th:** This will be the annual Rifle Fest. It comprises several events, including a 150 Benchrest Contest, the dreaded Seneca Run, (AKA the Walk, Stumble, and Gasp), and a single elimination Creedmoor style prone shoot. Medically qualified volunteers are welcome to be in attendance. **Contact Patrick Watson** at [patwatson1969@hotmail.com](mailto:patwatson1969@hotmail.com) for details.

**SPAR Fall Camp Nov 13th:** This will be for year end awards and general planning for 2022. We will be holding a brief Medicine Bag ceremony for **Neil Pisk**. (Small items only please)

## NRA BASIC METALLIC CARTRIDGE RELOADING COURSE

11/6/2021 & 12/4/2021 (1st Session 8 am – Noon)

### Class Description:

Need or want ammo but can't find any and mailing is not an option? You're left with an old American skill; self-sufficiency and creativity...Make your own!

This class will supply you with the knowledge of how to properly and safely reload your used casings into economical, effective and accurate ammunition. As you hone your reloading knowledge you will also improve your shooting skills.

### The class is structured in two sessions:

**1st session** – This class is strictly academic and is held in the EF&GA Meeting Hall from 8 AM until noon.

**2nd session** – This is "Hands On" Training held at the reloading bench scheduled for a mutually agreed upon time and date. You will reload your own cartridges and produce ammunition that day.

The cost of the class is \$125 for members and \$135 for non-members. If you need supplies (cases, primers, projectiles, powder) they are available for a \$10 surcharge. Prior registration and a \$20 deposit are required to secure a place in this class. Registration is necessary and limited.

**Contact:** Elvio Marchi 760-734-3942 [elvio1@cox.net](mailto:elvio1@cox.net) or register using the link at <http://www.escondidofishandgame.com/classes/nra-basic-metallic-cartridge-reloading-course/>

## NRA BASIC SHOTGUN CLASS

11/14/2021 & 1/9/2022 (8 AM – 5 PM)

### Class Description:

This class covers firearm safety and basic skills of Shotgunning. It is also designed to train the student with the proper skills required to hit a moving target. The NRA Certified Shotgun Course teaches stance, gun ready position, swing to target, trigger pull and follow through. The class consists of classroom exercises and hands on instruction including live fire exercise through which students will learn and demonstrate safe and proper shotgun shooting procedures and technique. Hands on range time will include techniques required for shooting moving targets (Trap). Upon successful class completion students will receive the NRA Basic Shotgun Certificate. Classes are limited to 12 students and a deposit is required to secure registration.

# TRAP CORNER

By Darrin Eaton

## Turkey Shoot (11/20/2021)

No, we do not encourage people to shoot at live turkeys on our range, the turkeys are frozen. It's not easy getting them to fit in the target launching machines, but it's worth it. Actually, we shoot regular Trap with a twist. There are 10 people on the line and the top score (out of 10 clay targets) wins a frozen turkey. If there is a tie, then there is a shoot-off for the bird. Second place wins a box of stuffing or some cranberry sauce. This annual event is always a lot of great family friendly fun. The shoot will take place starting at 8:00 AM and will continue until the turkeys are all gone. Compete to win a frozen turkey or stuffing from 3 different disciplines – 16-yard trap, 20-yard wobble, and 25-yard handicap. Tickets are \$5 per round or 5 tickets for \$20.

## Winter Saturday Schedule for Trap

Because the sun sets earlier and the weather is colder at night, we are going to change Saturday Trap to begin at 2:00 instead of 4:00 PM. This will only be until Daylight Saving Time returns (3/13/2022). The good news is that we all get to shoot while it is still warm. Under this schedule, the Punch Card Shoot and the Century Shoot will be suspended. This will NOT affect the Pot Shoot, only 16-Yard Trap.

## Junior Trap Is Growing

**Chris Cote** and **Curt Summers** have done an excellent job of bringing back Junior Trap. As a result of its popularity, regular 16-yard Trap will end at 6:00 PM on the second Saturday each month to accommodate some of our Junior Trap participants. This also means that we can always use more coaches. For more information about Junior Trap, contact **Chris Cote**.

# RANGEMASTER SOUND OFF

by Jay Zimmett

"If a tree falls in a forest and no one is around to hear it, does it make a sound?" is a philosophical thought experiment that raises questions regarding observation and perception.

"If you ignore our Safety rules and no one is around to see it, does it make it OK?" Is a problem waiting to happen that also raises the question regarding observation and perception.

It is much easier to justify (in your mind) ignoring the rules if no one is around to observe you doing so. It is even worse when a group of shooters ignores (everyone does it) the rules!

We all know that you are not allowed to shoot shotguns on the 150 Rifle range with bird shot (slugs only). So why do I find a target backer that is all shot up with bird shot???? I guess nobody else was there to observe you ignoring the range rules.

When you are finally "observed" ignoring the range safety rules (and we will find you) the penalties can be very harsh with range suspension all the way up to membership termination.

I have talked about safe firearms handling numerous times, but when I walk up to someone not following our safety rules and I hear, "Well nobody else was on the range..." You may get the few hairs on my head standing up and get a lecture about "If a tree falls in a forest..."

We have been getting some rain which means the range will start getting green with grass and weeds. Please pay extra attention to the Wild Life such as Deer and Turkeys on the hillside and firing ranges. Do NOT shoot around them to "scare" them off. Either wait for them to move on or call the range(s) cold and "mosey them along".

The association is a big supporter of our youth and has several Junior programs that are not just for members but are also open to the public. We provide the firearms, ammunition, coaches and at a lot of the events lunch (I am the Chief Chef for Junior Rifle).

What these events need are people volunteers (donations are also good) to help make them run and teach our youth fun safe firearms handling. The satisfaction you will get back by a smiling face is worth more than your time invested. Please step up and volunteer to coach and assist at these events. Contact the shoot chair for more information.

The Holiday Season is upon us and it is time to think of someone besides yourself!!! We have several programs at the range where we are collecting Diapers, Toys and Gold dust to help the Marine families at Camp Pendleton.

You can't find any ammo or primers to buy so you might as well help someone who can use the extra assistance. If you have any money left after donating and you purchase a new firearm during the Holiday Season just to get a box or two of ammo, please take the time to READ the manual on how to use and clean it or at least watch a YouTube video.

# JUNIOR CORNER

by Patrick Russ

## Important Dates:

Junior Trap 11/13/2021, 12/11/2021

Junior Rifle 11/21/2021

On October 17th the Junior Marksmanship program hosted a Coaches Class in order to introduce potential new coaches to the ins and outs of coaching. The class was a huge success. The class was taught by **Patrick Russ** for pistol, **Chris Cote** for shotgun and **Ren Everett** for rifle. **Austin Cote** and **Darrin Eaton** assisted as well. Special thanks to **Lucy Nelson** for setting up lunch for everyone. We had 12 people complete the class. The day was long, but we got a lot accomplished. I think everyone had a good time and they learned a lot of good skills. While this class was hosted by the Junior Marksmanship program, it was intended to assist anyone that would like to coach any of the programs and EF&GA, including Woman on Target. I look forward to working with our newest coaches.

## RULES TO LIVE BY

1. **Treat** every firearm as if it were loaded
2. **Never** point your firearm at anything you don't intend to shoot
3. **Keep** your finger straight and off the trigger until you intend to fire
4. **Know** your target and the surroundings

On November 10th, our beloved Marine Corps turns 246 years old.

### The Marine Corps Hymn

*From the Halls of Montezuma*

*To the shores of Tripoli*

*We fight our country's battles*

*In the air, on land, and sea.*

*First to fight for right and freedom*

*And to keep our honor clean; We are proud to claim the title*  
*Of United States Marines.*

*Our flag's unfurled to every breeze*

*From dawn to setting sun; We have fought in every clime and place*

*Where we could take a gun.*

*In the snow of far-off Northern lands*

*And in sunny tropic scenes; You will find us always on the job--The United States Marines.*

*Here's health to you and to our Corps*

*Which we are proud to serve; In many a strife we've fought for life*

*And never lost our nerve.*

*If the Army and the Navy*

*Ever look on Heaven's scenes, They will find the streets are guarded*

*By United States Marines.*

**To my fellow Marines, Happy Birthday and Semper Fidelis.**

The Junior Marksmanship program would like to thank all the men and women who have served or continue to serve this great country in our Armed Forces. We wish you a very happy and healthy Veteran's Day. We would also like to thank those who have served or continue to serve as First Responders and those on the front lines. Your sacrifices will not be forgotten. On November 21st, before the start of the Junior Rifle event, we will be holding a special ceremony to honor these men and women. The ceremony will start at 8am and include color guard. All are welcome. The Junior Rifle event will start shortly after the ceremony.

The Junior Marksmanship Program would also like to wish everyone a happy Thanksgiving. With another crazy year behind us, I know that we all have plenty to be thankful for.

## PARALLAX

(An attempt to explain)

By Elvio Marchi

At one time or another, this happens to us all. This explanation (or attempt to...) is primarily directed at our relatively new shooters. You "greybeards" can be very helpful relating the concept to the newbies.

Have you got a scope that, if you move your head, the reticle (crosshair) seems to move off the target? Due to their construction this is very common on fixed focus scopes. This effect is termed "parallax".

You can find, with these same scopes, that at a certain target distance the reticle will stay fixed on target even though you might have moved your head. That's because the reticle and the scope's target image are now on the same focal plane.

The adjustable parallax type scopes (the ones with either a side focus knob or lens focus ring) are mechanically and optically corrected so that when the target is made to become in focus the reticle has been moved to correlate with the target image. The reticle and the target are on the same optical plane. For this, imagine a playing card (an ace) held at arm's length with a small transparent plastic disc marked with a crosshair held in your other hand, closer to your face. Now view the card through the disc and center the crosshair on the card. If you move your head, the reticle seems to move to one side. If both the card and the disc are brought into contact; your head can move, the reticle stays fixed.

On the range, this effect can possibly have you fire off target because of the tendency to correct the reticle placement with rifle realignment rather than bringing your face to original position.

## Appreciation for Assistant Shoot Chairs

by Jim McKim

In the August newsletter **Darrin Eaton** recognized Shoot Chairs for their contributions as volunteers in the Association. As a Shoot Chair for five events, I appreciate his words in print, as I do the oral "thank you" and the help I get from participants at the events I run. But there is another volunteer role that deserves recognition, too. That is Assistant Shoot Chair (ASC). Every event is required to have an ASC to back up the SC. I have two ASCs who arrive at the range as early or earlier than I do. They help set up, take turns running the firing line so that I can also shoot, put things away after the match, and on occasion step in to run the event if I can't be there. I'm retired and don't travel much, so generally I can work my schedule around the EF&GA events I run or want to attend. That was not the case in September when I was going to be out of town for over three weeks. Having competent and reliable ASCs meant my events could stay on the calendar and participants could come and enjoy themselves as usual. Kudos and thanks to **Mark Dambkowski** (NMC/AIMR & Smallbore Rifle) and **Bill Townsend** (Smallbore Rifle Silhouette) for stepping in. You guys are great!

## As-Issued Military Rifle Match News

**Jim McKim, shoot chair**

For those of us interested in mil-surplus rifles, one of the fun aspects of the As-Issued Military Rifle Match is seeing the variety of historical small arms used by competitors. At the October match we had four different countries represented by four different rifles in four different calibers. The most popular, in use by four shooters, was the US Rifle M1 .30-06 (M1 "Garand"). Rounding out the firing line, at one each, were a Finnish M/39 in 7.62x54mmR, a Japanese Arisaka Model 38 in 6.5x50mm, and a British Lee-Enfield No. 4 Mk I .303 British.

The topic of historical discussion and show-and-tell for the month was the US Rifle M1D, a scoped version of the M1 designed and built as an attempt to create a US sniper rifle. Too late for WWII, even though it was officially adopted in September, 1944, and unlike the M1C version, not used in the Korean War either, most M1Ds were built from existing service rifles in the 1950s and 1960s. They have come into private ownership through the Civilian Marksmanship Program. Since the M1 is a "top loader" utilizing an 8-round en bloc clip, the scope

had to be offset to the left of the receiver, making it far from ideal for sniper service. Not only does the offset play havoc with cheek weld (mitigated somewhat with a leather cheekpiece), it also means windage adjustment is correct only at one distance! Additionally, the telescopic sights of that era were a far cry from even an inexpensive scope of today. We're talking about 2.2X or 2.5X magnification, small diameter tubes, uncoated glass, not fog-proof and 1 MOA adjustments, so not what you might think of for precision shooting. Then again, the US military didn't even have a structured sniper training program or table of organization and equipment for sniping at the time, so it was all somewhat improvised anyway.

M1Ds are relatively rare, with somewhere around 10,000 of them built compared to over 6 million standard M1s. Despite their awkwardness and shortcomings, they are highly sought after by mil-surplus collectors and command an accordingly premium price if they are genuine. **Cowboy Action Shooting Cart** Simple and plain but functional. A finished, plywood box on a golf cart with a vertical rack that supports three long guns. The box easily contains two or more pistols, web gear and ammo. \$40 (The cart alone is probably worth more than that.)

Send an email and I'll send pictures.
