Linda's Lines

It's September and normally I would tell everyone to be careful since the kids are back in school, but since the powers that be have decided that we are not responsible enough to go to school, I'll just say happy autumn.

We are slowly starting to reopen. Crawl, walk, run is our new anthem. You should be seeing most events scheduled for members only. As the restrictions are loosened, we will continue moving forward.

We are currently holding our meetings outside so that we comply with social distancing guidelines. The Board of Directors is getting lots of work done but could always use help. Feel free to attend a Board meeting the first Thursday of each month at 6:30 pm. The general meetings are starting at 7:00 pm to take advantage of daylight.

We are taking donations for the Holiday Joy Drive and the Diaper Dash at any time. The proceeds will be given to Camp Pendelton families. Remember Gunny Dave Randsberger.

We will hold our elections at the September General Meeting. Don't forget your range ID badge.

Finally a special thank you to Denise, Lucy, Ken, Geraldine, Bob, Joey and Jay for your help on 8/16/2020. Many hands make light work.

See you soon at the range.

Linda

DARRIN'S DOSSIER

State, and CDC guidelines to prevent the spread of COVID-19.

Crawl – Events on the calendar that are labeled with the location and *Members Only* in square brackets i.e., [150 – Members Only] are in the first stage of the reopening process. At this stage, the shoot chair has filled out the required County of San Diego Reopening Plan form and has adjusted their event and sign-up process to accommodate the County's COVID requirements. This is quickly voted on by the Board of Directors and once it is approved, the event can open. At this stage, it is limited to EF&GA Members Only. This is done to keep the participant list short so that the shoot chair can fine-tune the sign-in process and the running of the event.

Walk - Events on the calendar that are labeled with the location and *Members & IG* in square brackets i.e., [150 – Members & IG] are in the second stage of the reopening process. At this stage, the shoot chair has been running the event in the *Crawl* (members-only) stage and has decided that the process has been tuned and is working well. At this stage, the shoot chair adjusts the County of San Diego form and submits the declaration to the Board for approval. This is quickly voted on by the Board of Directors and once it is approved, the event can open in *Walk* mode. At this stage, it is limited to *EF&GA Members and Invited Guests*. Just like with casual shooting, each EF&GA member may invite up to two (2) guests to an event. As a courtesy to the shoot chair, please inform the shoot chair of the guests that you intend to bring to the event. Just like casual shooting, you are responsible for getting your guests through the gate and making sure that they follow EF&GA rules of safety, conduct, and COVID compliance. These tiered levels of responsibility will ease the burden on the shoot chair and make the event run smoother.

Run – This will be in the state of *back to normal*. When this stage is achieved for an event, the shoot chair will be permitted to set the gate to OPEN during the event and the general public will be able to participate in the event. This stage will be under consideration when the State of California has declared San Diego County with a risk status of *Minimal*. At the time of this writing, San Diego County currently has a Risk Status of *Moderate*.

All of this is subject to change because the State of California and the County of San Diego are constantly changing the rules and requirements. If this were a football game, it would be like having the referees move the goalposts after each play and at the same time having the line umpires adjusting the boundary lines after every 3 minutes of play.

One thing that has not changed is the tireless dedication and efforts from the shoot chairs and the others that help run each event. Under normal conditions, running an event is like herding cats on horseback. Adding this level of complexity is like handing that cowboy two full glasses of water and asking him not to spill them while riding bareback without a bridle. Please be sure to thank your shoot chairs for their patience, dedication, and commitment to excellence.

The New Normal

As I mentioned last month, we are finally opening up events again. We are continuing with the **Crawl, Walk, Run** method. In events that are running now there are clearly marked people serving as *Health Monitors* to make sure that we are all behaving properly to comply with County,

When a Health Monitor asks you to raise your mask or stand further apart from each other, please be polite and thank him/her for volunteering to help make the events possible again.

Speaking of *Health Monitors*, if you need volunteer hours, you can fulfill part or all of your time by serving EF&GA as a Health Monitor. We can train you quickly and you will not need to lift anything heavier than an electronic thermometer. If you want to volunteer, contact the shoot chair for the event that you want to help out. If it is an event that you don't participate in, it would give you an opportunity to see the event as well. I have done a few and I have learned a lot about other events.

Make Time to Attend a General Meeting

The last General Meeting was held outside on the Trap Range. Our president, Linda Linaker sat in the scorekeeper's chair to preside over the meeting while we all sat with our masks on socially distanced from each other. Because we have missed a few meetings, we held multiple drawings for door prizes and drew multiple member names for the Attendance Prize with no winners. Every month that we go without a winner increases the Attendance Prize by \$100 with a maximum of \$500. If you don't show up, you can't win.

Be a Raffle Donor

Your donations help support our monthly General Meeting Raffle. Our entertainment Chairman is Bud Smith. If you have items you would like to donate to our monthly General meeting raffle, please contact Smoldering Bud at budsmith223@gmail.com. Please consider new or used items in working order. Thanks for your support.

Elections (9/10/2020)

Because we are finally going to hold General Membership meetings, we can finally get the elections rolling. Nominations will were made at the August (8/13/2020) meeting. There is still an opportunity for additional nominations at the September (9/10/2020) meeting as well. The offices of President, Vice President, and Secretary as well as three (3) Director positions will be on the ballot this year. So far the nominations are:

President *Linda Linaker*
Vice President..... *Darrin Eaton*
Recording Secretary*Geoff Orchin*
Directors*Ren Everett, Chris Cote, Yosi Boubllil, Tim Hoy, Mark Fusting, Jack Starlin, Tim Allen*

After the September meeting, the ballot process will begin. In order to vote, you must be present at the September meeting and have your EF&GA badge in hand with the annual sticker on the badge proving that you are a current member in good standing. The votes will be counted that night by the Election Committee and the results will be announced later that evening.

Scholarship Awards (9/23/2020)

With the whole COVID-19 situation throwing a wrench in the works of everything, our annual scholarship award was not addressed yet this year. The application deadline is usually in August but this year it has been extended to September 23rd, 2020. Members are encouraged to have college bound family members apply for this award. Requirements and applications are on the website.

Left the Range

Brian Rasmussen passed away May of 2019. He became a member in 2006 and he was always around for events and was a regular donor to the Junior Marksmanship Program. Please remember him and his family in your thoughts and prayers.

Ronny Duncan passed away this year as well. He became a member of EF&GA in 1997. Please remember him and his family in your thoughts and prayers.

Thank You for the Donations

Part of the membership renewal form includes a section where you can donate to the Association above and beyond your membership dues.

This year the membership has been generous and we all appreciate it. With COVID-19 shutting down our events, revenue has been down. This will help a lot. I want to publicly thank each member that donated for their generosity. **Joven Abrenica, Marshall Goddard, William Getz, Thomas Harrington, Charles Itchkawich, Eric Elsam, Robert Easter, Herb Smith, Frederick Ekstein, Rudy Vilkutaitis, Wayne Strong, Jack Bose, Dean Nelson, Paul Rowan, Paul Hardy, Robert Jungman, Malvin Parr, Daryl Smith, Carl Morris, Kimberly Filanc, Paul Varesio, Barbara Farrell, Asa Gregory, James Halcomb, Ben Guthrie, Steven Tye, Annette Champion, James Schaible, Randall Gompper, John Pluth, William Wolanin, Harold Riggs, Ryan Huttenmaier, Jerry Frazier, Don Hamblen, Harold Dewall, Peter Winokur, David Taylor, Douglas Pratte, Larry Jenkins, Tim Trejo, Henry Freet, Dennis Fragazi, James Foral, Joy Jones, Brian Fletcher, Henry Rupp, George Lentulo, Roland Ramirez, James Skeen, Shawn Moore, Ferris Fitch, David Leedom, Nicholas Fanelli, Michael Dolphin, Dirk Reschly, Delbert Morton, William Williams, Kenneth Shepherd, Michael Tombrinck, David Walker Jeffrey Keith, Scott Minturn, Charles Fowler, Robert Botte, Kevin Young, Ken Hogue, Jake Luciano, Gregory Dietrich, Jeffrey Shaffer, James Daube, Peter Swenson, Thomas Lightner, Kerry Stein, Joseph Jensen, James Cramer, David Clinton, Rick Hall, Herbert Kaichi, Daniel Huff, Jonathan Ryberg, Joe Luciano, Christopher Januszewicz, James Preston, Trace Preston, Aidan Preston, Jeff Boersma, Mark Girard, Doyel Price, Gregory Martz, Kirk Hernandez, Richard Cornell, Dale Tiglio, Jeffrey Brooks, Rolando Geniza, Michael Rhamy, Jon Sherwood, Michael Griesinger, Al Torrizo, Louis Williams, Robert Husband, Andrew Parker, Bryan Fiehler, Kevin Day, Richard Smerud, Alan Shlemon, Bryan Gideon, Hunter Baskins, Ronald Goulden, Juan Ramirez, Robert Hannis, Vince Torti, Robert Jensen, Jonathon Singh, Timothy Costanzo, Jangh Singh, Craig Farrington, Sameer Jafri, Amir Jafri, Safi Jafri, Bradley Johnson, John Starlin, Russell Carr, Paul Sullivan, Rodney Mitchell, Conner Hand, Gary Phillips, Joe Miramontes, Kevin McConnell**

Engineering and Hard Work

Over the past few years Patrick Russ, Chris Cote, and I have been working on inventing ways to more efficiently separate the lead from the dirt at the back of the Pistol Range.

The first device was a dry-sluice that consisted of a 2x6 wooden frame with a wire mesh bottom hanging from a wooden structure that would swing with percussion to shake the mix traveling downhill while dirt falls through. The lead would fall out the end of frame into a 5-gallon bucket that we would stack in the back of a Gator to be dumped into the recycling vats later. This worked but it took about 10 people all day to fill a 1/2 yard vat with lead. We used rakes and shovels to remove the pay-dirt from the hill and multiple people would pick out the rocks while mix was moving down the frame. The work was dirty and slow but it did produce results.

The second device started out as a cement mixer with an expanded steel trash can bolted to the front of it. While the mixer was rotating, we would shovel in pay-dirt and the tumbling action would separate the dirt from the lead. This was faster and more effective but it still require a bunch of people to separate the rocks from the lead. With about 6 people, we could fill a 1/2 yard vat with lead in about 6 hours. Again the work was dirty and difficult but it did produce results with fewer people and in less time.

Enter Dave Robertson. Dave is a quiet guy with a great sense of humor and a heck of a Trap and 5-Stand shooter. If you have been to a work party, you have probably seen him driving his orange tractor for the entire day. He looked at what we had done and decided that it could be done bigger, faster, and better. He fabricated a trommel that is about 12 feet long with a cylinder made from a 55-gallon drum and expanded steel. The trommel is powered by two hydraulic motors driven by a hydraulic pump from the PTO on his tractor. He also fabricated a hopper (known as the 'hoppah') that can be loaded with a skip loader. The 'hoppah' is then picked up with a forklift to pour the pay-dirt into the uphill end of the trommel. Once we tested the system (hoppah and trommel together), we made a plan to do the lead mining in a big way.

First, we filled sand bags. Not just a few, about 1500 of them. We used the 'hoppah' to fill sand bags while at least two other people used zip-ties to close the sandbags. The filled sandbags were then shuttled over to the Pistol Range using a tractor bucket and/or both of the Gators.

An excavator was rented and about 80 cubic yards of pay-dirt was removed from the back of the Pistol Range. Fee Builders Supply donated 20 cubic yards of DG (Decomposed Granite) to combine with the sandbags to fill in the hill again while mitigating erosion.

On August 16th, we had a work party. We started processing the pay-dirt through the 'hoppah' into the trommel. It was hot, humid, and uncomfortable outside but we processed about 50-60 cubic yards of material. The dirt that was separated from the lead was put up on the hill with tractors along with layers of sandbags and DG. We filled a

Dossier continued from on pg. 4

bunch of recycling vats and got the Pistol Range ready for use on Monday.

At the time of this writing, we still have about 20-30 cubic yards of pay-dirt to process. Hopefully, by the end of September we will finish processing the pile of pay-dirt and finish replenishing the dirt on the hill with layers of sandbags to minimize erosion.

TRAP CORNER

InterClub (8/22/2020)

This time it was our turn to host the InterClub Trap Competition and I went into it expecting a hot-mess all day long. Under normal (non-COVID) conditions this event is a lot of work with a bunch of little details all over the place combined with a good-sized crowd. Adding in the COVID component was going to make it just that much more challenging. Because of the nature of the event, I had two Health Safety Monitors walking around all day keeping everyone in compliance. I had volunteers offering to help with scoring and loading of the houses to help it all flow smoothly. I also had Tim Hoy, Mark Baldwin, Chris Cote, Austin Cote, and Ron Schroder step up to the plate and help orchestrate everything. Without this team, I would probably be in a padded room in a fetal position muttering incoherently right now. We set up an assembly line on the stage for getting people through the gauntlet of the Green-Sheet, Statement of Health Forms, Temperature Scanning, Payment Processing, and Squad Assignments. After everyone was checked in and rostered, we had a great safety briefing where I pointed out the Health Safety Monitors and advised the participants to please comply with our Safety and COVID requirements and procedures.

Next came the actual shooting. We ran 14 squads through two rounds of Trap from the 16-yard line on House 1 and House 2. The participants had to be reminded to 'mask-up' while walking but overall, it went smoothly.

Then, we got lunch going. Major Market supplied their usual fantastic sandwiches while our volunteers served the participants. In order to comply with COVID requirements, we had to serve the food to each participant in a sterile manner (gloves, tongs, masks, etc.) rather than letting them all paw through the food buffet-style. While all of this was going on, we set up the Handicap squads and randomized the order per the InterClub standard method. Special thanks goes to Ken Jossenberger for doing a fantastic job creating an elegant and useful Excel spreadsheet to do the heavy lifting.

After that, we shot our handicap rounds. Another 14 squads through House 1 and House 2 at handicap distances derived from each shooter's 16-yard scores. Again, we had plenty of volunteers helping to keep score, load the machines. The participants all had a great time and the day ended without any major incidents.

As far as the scores are concerned, Redlands Shooting Park had the team high score of 463. The individual category winners were:

Junior *Tristan Diaz* - 85

Woman *Sarah Sherlock* - 79

Men *David Winstead* on the tiebreaker, longest handicap back run, over *John Kinum*. Both with 95's.

RANGEMASTER SOUND OFF

by Jay Zimmett

I would like to welcome all the new members that have recently joined EFG&A and remind all the current members to help the “newbies” learn our rules and range etiquette.

New members: We are all Range Safety Officers. If you observe unsafe firearms handling by anyone please contact an RSO on the range or contact (email/call) me with the details.

It is amazing and sometimes disheartening on some of the items that get left at the range. We do have a Lost-n-Found in the Meeting Hall. It depends on who found it (member or RSO) on where it may wind up.

If something is found on the range and it is not “valuable” it is usually put on the tables in the Meeting Hall. If the item was turned into an RSO and it has some value, we will secure it in the lockers by the fireplace in the club house. You will need to see an RSO to retrieve it.

Every 30 days or so I will go through the items found and salvage anything worth keeping. I have enough staplers to last a lifetime! I currently have a nice spotting scope that will be mine in a few weeks... Label your gear, better yet, stop leaving it!

The one item that gets left at the range that will really get my attention is firearms. It does not happen that often, but it does happen. What is even more amazing is on occasion we have to hunt you down (green sheets) and let you know we have it. You did not even know it was missing (responsibility)!!!

When a firearm is found it is secured by a staff member and I usually will take possession (which I do NOT like to do) until the owner can be found. I then like to have a nice long talk about firearms responsibility and the Felony charge you just missed getting for leaving an unattended firearm (ramifications of unauthorized use).

Just a reminder –YOU are legally responsible for your firearms! If you are going to leave a firearm on the range, please be considerate and make it a Cowboy Pistol or Rifle (45 Colt)! Organized shoots have started up again, and I encourage

you to check the website (not the newsletter) on what ranges or shoots are open BEFORE coming to shoot. Shoot Chairs have to go through a vetting process for COVID compliance before their shoot is approved. The Newsletter calendar may not be accurate until things get back to “normal”.

As you may have noticed there has been a bit of civil unrest going on around our country which has caused a sizable increase in firearms purchases. There is now a very large group of first time gun owners who need our help.

If you know of a new firearms owner (friend, family, co-worker) invite them to the range. Encourage them to get training (we have a lot of classes). Help them get a positive experience and knowledge so that they will become responsible gun owners.

I am happy to assist anyone out there.

Cold Range:

BLACK POWDER NEWS

by Garth Warner

Is 2020 over yet? No? Soon? Are we there yet?

Next Muzzle-loading Silhouette Contest: This Contest will be on Sept 27th. This will be a standard Mid-Range contest with targets at 75, 100, and 125yds. Pistol and revolver will start promptly at 08:30. Rifle will start at 10:00. Yes we are still under Covid-19 restrictions. Until further notice, all Muzzle-loading Silhouette Contests will be operated under the guidelines as posted in the July Newsletter. Please go to the club website to reference the July Newsletter to refresh your memory.

Next Muzzle-loading Bullseye Contest: This is scheduled for Sept 6th. The Contest will be a 3-gun format for Rifle, Pistol, and Tradegun. Contact Patrick Watson for details.

Muzzle-loading Silhouette Year End Schedule: October is Long Range. November is Standard Short Range. December will be a special event shoot. Note: I have not listed a 2019 Top Gun shoot at this time. Given the current problems with Covid-19 restrictions, some shooters eligible to shoot this event are NOT able to participate due to health concerns and/or current restrictions. I will schedule a Top Gun combined 2019 and 2020 contest early in 2021, as conditions permit. I will have separate trophies for each.

Muzzleloading Bullseye Year End Schedule: October 4th is our annual Muzzle-loading Congress for Rifle, Pistol, and Tradegun. November 1st is an abbreviated Rife-fest. 150yd Benchrest and Seneca Run. (Walk, Stumble, Gasp). Contact Patrick Watson for details.

Last Contest: Occurred on July 26th. This was set up as a Super Short Range contest to ease shooters back into the event after being shut down for so long. We ended up with 5 pistol entries and 8 rifle entries. (Note we have space for up to 22 members). All Covid-19 restrictions were met with minimal fuss. (My back thanks you for all of you who helped break down this set-up)

Primitive Archery: is alive and well. Archery starts after the Muzzle-loading Bullseye contests listed on the dates above. (Generally between 10:30 to 11:00).

Note: All events listed above are currently restricted to EF&GA Members only at this time. We hope to ease these restrictions as Covid conditions improve.

NRA Basic Shotgun Class September 13th, 2020 Sunday 8am-5pm

NRA Basic Shotgun Class. Location: Escondido Fish and Game Association 16525 Guejito Rd, Escondido Ca.

Class Description: This class covers firearm safety and basic skills of Shotgunning. It is also designed to train the student the proper skills required to hit a moving target. The NRA Certified Shotgun Course teaches stance, gun ready position, swing to target, trigger pull, and follow through. The class consists of classroom exercises and hands-on instruction including live fire exercise through which students will learn and demonstrate safe and proper shotgun shooting procedures and technique. Hands on range time will include techniques required for shooting moving targets-(Trap). Upon successful class completion students will receive the NRA Basic Shotgun Certificate. Classes are limited to 12 Students and a deposit is required to secure registration.

To reserve your spot call or email:

Bud Smith 858-922-6489 budsmith223@gmail.com

Dave Premetz 760-489-1082 slixgunr@yahoo.com or register online through the NRA at www.nra.org

David Premetz: NRA Training Counselor/Chief Range Safety Officer/Certified Instructor for Rifle, Pistol, Shotgun, Range Safety Officer, Personal Protection, Home Firearm Safety.

California Department of Fish & Game - Certified Hunter Education Instructor.

International Bow Hunter Education Federation - Certified Bow Hunter Instructor.

JUNIOR CORNER

by Patrick Russ

RULES TO LIVE BY

1. **Treat** every firearm as if it were loaded
2. **Never** point your firearm at anything you don't intend to shoot
3. **Keep** your finger straight and off the trigger until you intend to fire
4. **Know** your target and the surroundings

As we all know, thanks to Covid 19, there has not been a lot going on at the range. Most events have been completely canceled until further notice, including the Junior Program. But that does not mean that some of our Junior Coaches have not been actively improving the range.

In mid-August, a few of the adults got together to excavate the hillside on the pistol range. We took about 100 yds of dirt off the hillside in order to separate the lead out and rebuild the hillside. The lead separation is still on going as it is a huge undertaking, especially in the heat and humidity. In preparation for rebuilding the hillside, we had to fill approximately 1500 sandbags. We filled the sandbags after work and on Sundays. It was a lot of heavy, dirty work. Each time we did this, we were joined by a young man named Austin Cote. Anyone that has read the Junior Corner over the years will recognize the name. Austin has been making a name for himself with the Junior Marksmanship Program. He is currently the senior Junior Coach. During these informal gatherings, Austin can be seen actively working hard, doing whatever was needed. Lately, he helped fill the sandbags, load them into the gator and stack them behind the pistol berms. This past weekend, Austin worked hard digging trenches and stacking sandbags on the hillside. This is very hard work for even the toughest and healthiest among us. Did I mention the heat? It was in the high 90s with humidity in the 50%-60%. This young man is probably the hardest working 15 yr old that I have ever met. Forget that, he is easily one of the hardest working people that I know. He never complains, he's always happy to help wherever needed, and he is there voluntarily. Absolutely no one makes him be there. The Junior Marksmanship program and the Junior Coaches program are proud to count him among our ranks. If you haven't figured it out yet, this is what a future leader looks like.

The Escondido Fish and Game Association would like thank Abe at Free Builders Supply for donating 20 cubic yards of decomposed granite to help rebuild the hillside on the pistol range. Over the years, Abe has donated materials for many of the projects that have been done around the range. He's one of the good guys. If you are in the market for building materials, please look up Free Builders Supply. He supports us, let's support him.

How to place a classified ad in the newsletter

Please help to keep the classified section easy to read and well organized. There is no cost as long as you are an EF&GA member in good standing. Classified ads run for ONE newsletter (one month). If you want to repeat an ad for another month (with price adjustments, etc...) simply re-submit the ad request via e-mail.

Please submit requests for classified ads via email to newsletter@escondidofishandgame.com and be sure to double-check for spelling and grammar errors.

Members Only are allowed to submit Classified advertisements. Your Membership Number must be included with any advertisement request so that we can properly vet the submission before it is published. The Membership Number will NOT appear in the advertisement. Your Membership Number is on your membership badge on the same side as your photo.

No Illegal Transactions may be advertised in this newsletter. It is now illegal to sell ammunition in California without either going through an FFL or a licensed ammunition reseller. EF&GA cannot facilitate any illegal commerce of a state regulated commodity. This is also why firearm sales should include a phrase similar to Buyer pays DROS when advertising the sale of a firearm.

It may sound obvious but requests for classifieds are frequently received with not enough information to be useful to a reader.

There are 5 main components of a classified ad:

Category – Most classifieds fall into one of 3 categories, 'For Sale', 'Wanted', or 'Lost & Found'.

Subject/Title – This will appear in bold in the advertisement. This should be short (2 or 3 words) and concise.

Description – This is the body of the advertisement and can be a few sentences but not more than a paragraph. Abbreviations appear cryptic and are not recommended unless they are well known acronyms.

Price – A specific dollar amount as well as qualifiers give the reader important information. For example, "\$600 or Best Offer, Buyer pays DROS, Will consider trades"

Contact Info – This should be a name AND a phone number (including area code) and/or an e-mail address.
